

Directions: Used in small amounts as part of flavorful foods, Whole Food Concentrate™ will simply take on the flavor of the food. Healthful drinks can be prepared by mixing Whole Food Concentrate with fresh fruit and/or vegetable juices. As a nutritional supplement, use 1 to 2 teaspoons, 2 to 3 times daily, or more as desired. Begin with only 1/4 teaspoon and increase dosage slowly. Whole Food Concentrate is a rich, nutrient-dense product which should be gradually incorporated into the diet.

The maximum benefit will come if the product is eaten as is without being cooked. Add to juices, shakes, cereals, salads, etc. However, it may also be added to cooked dishes including cakes, cereals, casseroles, breads, or any other dish.

Please refrigerate to help prevent product from caking.
