

PURPOSE

Modern environmental factors, especially diet, have contributed to higher-than-natural pH levels for many companion animals. High pH may lead to disease conditions such as Struvite/Triple Phosphate Crystals. **Biotic pH™** contains ingredients that work to help acidify the Companion Animal's system, and re-establish the body pH at a more natural level.

FEEDING DIRECTIONS

Sprinkle atop or mix with one or more meals daily:

Weaning Kittens and Puppies:

A pinch (light shake) with each feeding.

Growing Kittens and Adult Cats:

One teaspoon* daily.

Growing Puppies and Adult Dogs:

One teaspoon* per 15 lbs. body weight daily.

*3-4 shakes, divide among feedings.

For best results, use in conjunction with the entire Wysong Optimal Health Program™ for Animals. (Visit www.Wysong.net)
