PURPOSE: Wysong DentaTreat™ is a great approach to maintaining pet oral health, utilizing the scientifically proven beneficial properties of cheeses, probiotics, minerals, and other natural ingredients.

FEEDING DIRECTIONS: Sprinkle atop or mix with one or more meals daily, using enough to cover the food.

Weaning Kittens and Puppies: A pinch (light shake) with each feeding.

Growing Kittens and Adult Cats: One tsp.* daily.

Growing Puppies and Adult Dogs: One tsp.* per 15 lbs. bodyweight daily.
*3-4 full shakes, divide among feedings.

DentaTreat™ can also be fed directly or applied to the teeth as a dentifrice.

For best results, use in conjunction with the entire Wysong Optimal Health Program™ for Animals. (Visit Wysong.net)

KEEP TIGHTLY SEALED. STORE IN TEMPERATE CONDITIONS. FOR LONG TERM FRESHNESS AND PRESERVATION FREEZE OR REFRIGERATE.

WYSONG
