INGREDIENTS: A special blend of Dental-Active Natural Cheeses, Trona Minerals, Calcium Lactate, Aloe Vera, Potassium Citrate, Direct Fed Microbe Cultures (Enterococcus faecium, Lactobacillus acidophilus, bifidus, and salivarius), Milk Calcium, Apple Polyphenols, Natural Enzymes, Wysong Whole Salt™, Fructooligosaccharides, Chromium Yeast, Isolated Milk Proteins (including Lactoferrin and Lactoperoxidase).

Wysong DentaTreat™ is a great approach to maintaining pet oral health, utilizing the scientifically-proven beneficial properties of cheeses, direct fed microbes, minerals, and other natural ingredients (request literature).

Suggested Usage: Sprinkle atop one or more meals daily, using enough to cover the food. DentaTreat™ can also be fed directly or applied to the teeth as a dentifrice.

For best results, use in conjunction with the entire Wysong Optimal Health Program™ for Animals (request literature: www.wysong.net).
