dry onto the food of older or show cats and dogs for extra nutrition.

**Purpose:** To provide optimal nutrition for kittens and puppies whose mother's milk may be unsatisfactory or unavailable. Mother's Milk may also be sprinkled

puppies will vary and the amount fed may need to be increased or decreased.

Keep unused formula refrigerated in a tightly closed container. Use mixed formula within 24 hours. Formula may be gently reheated before feeding.

**Directions:** For kittens and puppies: Mix one part Mother's Milk with two

parts warm water. Use pure water only, treated with Wysong Wellspring™ if possible. Shake or stir thoroughly. For kittens, feed at a daily rate of one

teaspoon (1/2 fl. oz.) of formula per 2 oz. (1/8 lb.) of body weight. For

puppies, feed at a daily rate of six tablespoons (3 fl. oz.) per pound of body

weight. The daily feeding rate should be divided into equal portions and

feedings should be every 3-6 hours. The needs of individual kittens and

puppies will vary and the amount fed may need to be increased or decreased.

Keep unused formula refrigerated in a tightly closed container. Use mixed

formula within 24 hours. Formula may be gently reheated before feeding.
